Washington, D.C. 20515

The Honorable Kevin McCarthy  
Minority Leader  
U.S. House of Representatives  
326 Cannon House Office Building  
Washington, D.C. 20515

Dear Leader Schumer, Leader McConnell, Speaker Pelosi, and Leader McCarthy:

The National School Board Association (NSBA) urges you to present the Postsecondary STEM Pathways and the Improving Access to Elementary and Secondary Computer Science Education programs as the Senate and House work to resolve differences between the America Creating Opportunities for Manufacturing, Pre-Eminence Technology and Economic Strength Act of 2022 (H.R. 4521) and the United States Innovation and Competition Act of 2021 (S. 1260).

The nation's school boards support efforts to ensure every student is equipped with the academic content knowledge and diverse skills required to succeed after graduation. This commitment includes a growing emphasis on expanding STEM and Computer Science learning opportunities designed to help students prepare for successful careers in the cutting-edge industries and fields that the rest of this important legislation seeks to support.

The leading advocate for public education
